WORK HISTORY

OCTOBER 2021-PRESENT

Company name: **Froogal Innovations Pvt Ltd**, Role: **React Js Developer**, Website: <https://www.froogal.ai/>

Project 1: FROOGAL DASHBOARD

This project is the web application which is the medium for interaction among the customers and merchants where I looked into UI designing such as dashboards, tables, navbars, cards, dropdowns, models and charts etc...

Project 2 : Glow

It is a diamond and jewellery E-commerce platform and is used to purchase gold, diamonds related products and other varieties through online where I contributed in the following aspects.

UI Components Designing & Application Interface Coding

- Web-based user interactions and developed highly-responsive user interface components via **React concepts**.
- Developed and implemented **front-end architecture** to support user interface concepts with 100% accuracy.

<https://www.glowjewels.com/>

Application Development & UI Designing

- Coordinated with the development team to discuss user interface ideas and applications.
- Reviewed application requirements and interface designs to ensure compatibility.

Webpage Designing & Optimization

- Determined the structure and design of web pages based on user requirements and balanced functional and aesthetic designs.
- Created features to enhance the user experience while ensuring that the web design is optimized for smartphones.
- Employed a variety of languages such as **HTML** and **CSS, Tailwind CSS** to write and create user friendly web pages.
